lol cant belive that u keep arguing... really.. its allready been said that its likely that both maps are going to be in the cp 2.. and if not.. then so what.. its a public vote so everyone who have wanted to vote for a map have been given the opputunity to vote for their favorite.. so the way u go on dissing for no reson.. calling names and accusing ppl of sumfin even tho its ovbious you are wrong... well.. thats just lame... really..... grow up

and with all the ppl who still plays renny and has renguard.. if so many wanted tropics..... they would have voted for it.. seriously.. noone were excluded for the time the poll was open
