[HLOWTomten]j\_ball430This is possibly the worst place you could ever advertise for a C&C: Reborn server. I say with confidence that a vast majority of these forums hates Reborn, including myself.

Oh, when did this forum only have you, Phoenixx, Aircraftkiller as members since its you three that infest every thread with 0mg Reb0rn suXxOrs.

As what Xtrm2Matt wrote, he is correct.

Lol, you're kidding, right? I have never posted anything of the sort in a Reborn thread (With the exception of a few times quite some time ago that were replies to them attacking Renegade Alert.), nor have I posted anything in a Reborn thread to try to derail the thread or to start an argument. And I've posted in many of their update threads, and I can use almost any of them as "evidence".
