Subject: What's your internet connection?
Posted by JVTech on Sun, 20 Apr 2003 03:52:34 GMT

CrimsonBlazer's connection is also my connection.

I have tested up to 3200 kb/sec downstream, and 270-ish upstream. Cox Cable.

Yeah, kinda figured that one

I have cox as well, how are you hosting such big servers on such limited upstream though?
