Because Aircraftkiller (Who doesn't like to be called ACK even though he feels that he can call other people what he wants) hates Reborn for some reason. We're not really sure why; if you ask him he'll say something like "I don't have to explain the facts to you. Reborn Sucks." and some other random shit about how their "textures suck," that their "skins are not textures," and that "that's not how Westwood did it. I could do better but I've got more important things to do like work on my own mod. Oh yeah, Reborn Sucks." Then of course, Renardin gets mad, posts something stupid, leaves (Aircraftkiller: "YAAAAAAAAAY!!!!") comes back several weeks later trying to get ACK banned but only succeeding in making other people mad at him (Aircraftkiller: "You see, your such a fucking retard that you make an idiot of yourself.") and posts some news, everybody flams him because they all are with Aircraftkiller for some reason. When Renardin does post some news, there's a whole outburst of flaming from people (Aircraftkiller: "That's a render. That's not in-game." Somebody else: "Your renders aren't in game. Battlefield 2 hasn't been released yet.") who don't like reborn and think that his work sucks and that his textures are too repetative and crap like that. This has gone on for several months now, with no end in sight unless:

- (a) Aircraftkiller leaves or is banned
- (b) People stop bashing Reborn, or
- (c) Aircraftkiller changes his additude.

So, that about sums it up.

All quotes from ACK are generalizations and are not things that he actually said, though I could be wrong there.
