policepolicel was told that there is a program for renegade that kicks 56ks, cuz every fuking time I host a fuking server i keeps on fuking laggin which it shouldn't cuz i got 100 KBs upload speed, thats 1 Mb..

so does anyone know about any program that could atomatickly kick the high ping people off of a non-dedicated server, or it could be dedicated..

thanx

All Respects

PEac OuT

- 1.) As far as I know there is no such program.
 - 2.) 56kers do not lag a server. A server lags because the host does not have enough bandwidth or processor speed to manage the amount of players on his/her host. You can only support so much.
 - 3.) 100kbs upload does NOT equal 1mb. At most you should be able to handle 4-6 players.
 - 4.) If you did have a program that kicked 56kers from your server, it would probably kick you out.
