Hi again, I was so pissed that evening! Sorry for that....

My problem is, that I get a "server welcome" with my name I am playing with, so everything should be fine.

I also "reactivated" my WOL account, in case that would be the problem, but no success. If the problem is on my side, how could I gain control of it?

PS:@wnxCabal:You won't get rid off me that easy...
