Gdiguy45 Another reason the mammoth tank has a bad reputation, is that noobs that drive the tank often feel as if the tank is super-powerful since its health is so high. They drive the tanks into dangerous places and often realize they need to retreat when its too late.....wasted 1500 credits.

Im guilty of wasting that 1500 Creds before. Ive stopped using Mammoths, though, opting instead to use Sniper weapons, and Mediums.
