I am using bhs.dll 2.01.

I had bhs.dll 2.12, but it crashed everytime :S

I hope scripts 2.13 will come out soon because I really like the loading time (1-2 second on my client), the chatlogging, and the other new features.

I also want to use the Chathooking included in bhs.dll, but can't use it because nobody knows how it works

Hope this will be better in 2.13
