[ftp://ftp.westwood.com/pub/renegade/dedicatedserver/Renegade FDS_1037.exe](ftp://ftp.westwood.com/pub/renegade/dedicatedserver/Renegade_FDS_1037.exe)
then pick one of the four bots for bots
BrenBot (BR) @ <http://www.brenbot.com/>
BlazeRegulator.Net (BR.Net) @ <http://www.blazeregulator.com/download.htm>
CloudyServ (CS)@ <http://cs.cloudyonestudios.com/>
NightRegulator (NR) @ [http://www.aohost.co.uk/NightRegulator/NightRegulator-v0.1.8 .zip](http://www.aohost.co.uk/NightRegulator/NightRegulator-v0.1.8.zip)

also here is a guide to installing BrenBot and setting up Mirc @
<http://www.multiplayerclan.net/brenbotguide.html>.

To run a server on WOL you need a FDS key westwood no longer gives them out so the only way to get it is to ask someone that has some extra keys to let you have 1. You can still host on GSA(Game Spy Arcade) it's free and you don't need a key.

accually its not www.NightRegulator.co.uk
