Maybe the word cancer has multiple definitions in Englisch, but in dutch it only means cancer as the disease. Yes it is often used by dutch people. Like words like fuck are used a lot in america. We use diseases, although it isn't accepted by many people. And I know a lot of people who really take a lot of offence when people use words like this.

I would ban him, seeing some more of his quotes. I also see some discriminating stuff in his texts. And a lot of dutch translations of God Damned.

And DJM, we calling the englisch people weird, is the same as you calling the canadians and the french people weird. It has nothing to with racism, there is quite a lot of racism in the netherlands but we never use the word weird in that case.

A good example of what we can see as racism is this quote
Quote:[11:50] <MPMAPS5BOT> 08SVSbos : fuck you kanker turk
