A screenshot of the skin wouldn't help. Almost every W3d is not allowed, although you shouldn't get banned for it.

Still the only people who can see what happened when he was banned are Mac, or Crimson. He either did something on purpose, and knows what happened but he is a lot smarter than the average person who wants to get unbanned. Or something went wrong on the side of Renguard than he can't know exactly why he is banned.
