Hey, you even got my edited Nod Light Tank in the picture!

Yeah, the Downloader for IE is horrible, but atleast it works. Then again, i dont think an unworking Downloader would be called that.

I like your signature, Warranto. Loosely fits me, though im normally a Defensive Sniper. Fun to kill those Havoc Campers with just a Black Hand Sniper. I love it when they ask where im at. I either dont answer, or just tell them "Snipers Secret!"
