Dude, what the hell? You have a girlfriend (which is more than most of the people here can say... including myself :)), so spend time with her. Now, I don't see why she's all pissed, but I'd rather spend time with my girlfriend (that is... if I had one) rather than play games. Women are demanding, so I suggest just going with the flow. Sacrificing gaming time to keep your gf content is well worth it.

Edit: A crucial spelling error fixed.
