My favorite (which I showed Blazer this weekend) is to sneak into Nod's Refinery with some Hotties and blow it up.

As for the Barracks, I always start off with a basic Engineer and line the door jambs with Remote C4. Then I hang out by the PT and wait for my unsuspecting Nod Engineers or soldiers to make it through the door. I got Aurora and a few others many times in a row with this tactic. It lit up the entire front of the Barracks! KABOOM!!! LOL!
