Absolutely awesome. Thank you, Halo! If Taxime ever comes back, I wanna thank them, too.

Edit: And there we are. It's not the prettiest custom avatar in the world, but I like it. There's a 128 x 128 version, too, but I decided to go with the 80 x 80 size used in the forum's local avatar database. I changed the "chemical cocktail" he carries to Tiberium-Green, too.
