CnCsoldier08 wrote on Sun, 17 July 2005 19:40 Why do you always post renders in 3dsmax? It obviously isn't going to look that way ingame, so why fool people? At least SAY it is in fact done in 3dsmax.

Totally agree, except it's okay to do that with models as long as they're not rendered all fancy like hell. In fact, it's okay to do it for anything as long as you don't do it nearly every single time.
