no, i meant the CP1 stand alone files (*cough* the files they put online when RG install had a habit of messing some files up *cough*)

The Don: You MUST install the renegade 1.037 patch BEFORE renguard. You have to;

- 1) uninstall renegade
 - 2) delete renegade folder
 - 3) install renegade
 - 4) install renegade patch 1.037 (use the auto-patcher, cancel it at 100% downloaded and it will install)
 - 5) install RG
 - 6) allow it to download and install cp1 if required.
-
