Firstly, this is in the wrong sub-forum, regardless of the fact you mentioned RenGuard. Secondly, your best bet is to ask in the Win32 FDS sub-forum. People randomly toss out offers of serial numbers upon occasion. I recently aquired one myself for when I decide to run a dedicated server. Just make a topic or something. The worst that can happen is you get flamed or something.

(Why yes, this is a 180° turn from my last reply to a question like this! How kind of you to notice!)
