Hydra wrote on Wed, 27 July 2005 21:24 Why do you choose to smoke pot in the first place, SEAL? What pain do you mask with the joint, and how does it make your situation any better?

Or do have to hide behind your fantasy world of marijuanaland every time something bad happens? Are you too much of a pussy to confront life's problems on your own like a man?

You don't have to be hiding from something to smoke pot. Being high is pleasant. You feel good, music sounds better, you enjoy food more, etc. Why does anyone do anything that feels good?
