So basically the guy was in a committed relationship for a long time, and in love with the girl, who dumped him for a reason unknown to us. His obsession was so bad he flew out to meet her, and got ownt when he saw she was with another guy. then he met another girl back home who was a tit and made out with his best friend. Then he said "let's change", and, influenced by an online community (rofl..), he became a "go out with the lads" kind of guy, fucking every chick he meets at parties and being the complete opposite of a relationship guy. Then he gives "shoutouts" at the end to the people who helped make him this way.

And he's supposed to have got his own back? Sounds more to me like he met a group of fucktards and let himself become one of them. All I want to know about this guy now is: why did the first chick dump him?
