142) . . .you heal or attack an ally Stealthed Unit who is hiding in plain sight.

Oh, shit, was that you?

Maybe. Maybe not. I generally stick with Stealth Black Hand units(Laser Chaingunners) unless we're in absolute turmoil. But it is happened before. Not just to me, but to a few other people I've seen. But most recently, a Sniper unit decided to try and hide behind me and use me as a human meat shield on some server. A. Sniper. Unit. And they kept firing while hiding behind me, too. Honestly, that's not a terrible strategy if you can avoid hitting the Stealth Black Hand unit.(And you got his go-ahead for "Operation: Stealth Meat Shield". . .) But you're not real likely to find someone willing to waste 400/800 Credits like that. Anyway. . .

Ya might be a n00b if. . .

147) . . .you think Walljumping by yourself on any server isn't an exploit.

148) . . .you think your can justify cheating/exploiting by way of calling the opposite team "campers". This is especially when the other team is either defending their base from a massive invasion, or dying so much they're constantly respawning.

149) . . .you like root beer but drink anything less than IBC Root Beer while playing. :3

And now. . .the moment you've all been waiting for. . .

150 for teh wen!!) You might very well be a n00b if you can't be arsed to say full words over voice-chat and instead use net abbreviations such as "lol," "gg," or "omfg".
