Ok, since im bored and everyone thinks of me as a "spammer" i figure ill get my thoughts on this.

Ok, one time i was playing red alert two, and i had 200 mirage tanks. And he had a lot more prisms and apocolypse (about 150 of each) but then when he attacked he lost all his tanks and i ran over him with rocketeers then he thought i cheated, so then i went and made a sandwich (turkey and cheese) then i came back and he said i was a haxor, i laughed and let him live, then i went and had dinner, came back and he still hadnt attacked then i went shit and he got 10 engis into my conyards somehow and i lost because i didnt have anything AROUND myt conyards and he used nighthawks so yea...i suck

Btw, Red Alert 2 ROX MY SOX
