IT lesson 1.0 - How a download works:

1. You click a download Button - to make this short -
 2. Download starts.
 3. If the server is limited to upload at a max of 5kbp/s for each user, then it doesn't matter at all what speed your connection is.
 4. If you are uploading, the speed of the upload is usually determined by your connection as the servers is usually faster.
