Money Grabbing? Is that the new little fad among all of the little kids these days? Ignorantly call a company "money-grabbing" because they want to make a profit? All companies want to make a profit, it's called business.

I think what he meant was that he thinks EA is concentrating more on profits than pleasing customers.

Hmm, if they didn't concentrate that much on pleasing their customers, they would make less of a profit, so those two are pretty much tied together. (You need customers to buy your products to make a profit. )
