I've since installed cathode lights too.

2.6GHz Pentium 4. (shit). When I get a new job I'll be saving up for a 3.8GHz
256MB GeForce 6800 GT
1024MB PCI2700 DDR RAM
80Gb seagate Hard Drive
External 160Gb Hard drive with scheduled backups.
512kbps connection (shit)

Not great but it does the job.
