@All who expressed their happiness about the buggy beta: Thx !!

Enrique_lobos wrote on Mon, 08 August 2005 18:42Nice work is better than RG lol NICE

But one question Who can use this?? all Client with RG or just the Admins ????

the best

Hello Enrique

Glad you like it The replays can be viewed by any person - once they get the log. The log is generated by the game server - so it is the server owners decision if he makes a or all logs available for public viewing / download.

MfG;
Minax71

PS: Thx for the flowers ... but writing a replay tool in actionscript and developing Renegade 2 is something completely different
