Lijitsu wrote on Fri, 19 August 2005 16:46 I've always wanted to launch plague filled corpses into an enemy fortress with the Trebuchet, and watch the plague spread, slowly killing off and weakening my enemies, until finally my army sweeps over the walls, and slaughters the remnants of the populace, and take control of the fortress to increase my amount of land controlled... That or just throw rocks at people with it.

That's not possible with Renegade, you would need a game that supports ragdoll models.. unless you're willing to make several "in-flight" animations for every character.
