Ya know what I want? I want a Stealth skin that's exactly like the Command & Conquer: Tiberian Sun stealth effects. That's right. "Snow". I want a black/grey fuzzy effect skin. Why? Because I think it's cool. So. . . I tried doing it. All I ended up doing, however, was making things really hard to see in light areas and really easy to see in dark areas. . . I tried fiddling with the skin further, but I didn't have much luck. Oh well. . .
