Lijitsu wrote on Mon, 22 August 2005 15:25Go and get Xfire(www.Xfire.com) and install it, since you need it to join the clan. Dont worry, it isnt some virus thing, its just an ingame Instant Messenger that also tracks gaming hours. Do you. . .like. . .have signatures disabled or something, Lijitsu? Or do you just not pay attention to them? In this case, you may want to. :x
Quote:Alright, now after youve gone and done that, head over to www.ciaclan.com and check out the rules. But I appreciate the thought. Then go to the Forums and post that you want to tryout in the forum with the same name.

If you want, you can tell them i recommended you.(Purple{T}Magpie)No dice. The site is "Under Work," apparently.
