Does any body know the dude viper-fud (sp) He has the server ssppoo3. I was banned from his server tonight. First time I have ever been banned since I purchased the game about a year ago. I made hime angry cause I kept bumping into some guys tank while he was trying to disarm a mine.

If some one could forward this message to viper or if you (viper) read this yourself.

I am truely sorry for bumping into that tank. I was totally unaware that I was doing that. I thought I was helping the player by keeping my apc close to his tank and firing. I was worried that a sbh would jump in and steal his tank given that he was repairing in the field.

All I noticed was the mine exploding which killed the dude attempting to disarm it. Some other player was looking at the tank and when I messaged him, I was wondering why he did not jump into it. I wish I would have been given a chance to explain my actions before you booted and banned me. Have played on your server for some time without problems. Hope to do so again in the future. Again, I am sorry for bumping into that tank. I promise I will never bump a tank on your server again.
