hi everyone.
First off all, id like to compliment the developers of renguard. Renegade is more fun without cheaters. However, since a few days im banned for some reason. i suspect my son has been messing around, cause i had to reinstall renegade.
i really would like to get unbanned, i love to play renegade and i can assure u i don't cheat or hack or nothing. i think my statistics will show that, and im sure that a lot of other renegade players will confirm this.
thats why i would kindly ask u to plz remove the ban?
ty in advance
