Hello,

my name is trooprm02 and for the longest time I have been looking for a FDS Serial!

I have arranged to create a 75(maybe even 127!!) player aow server. And my friend down in miami is also hosting,

and he says its virtually lag free! The server will run 24/7 and will be moderated by clan members, and a bot at irc(language filter, kick ilders etc...)

In return for the serial I can make you a full-moderator, or you have full access to my services(Im a proffesional webpage designer/programmer)

Anyway, If you would like to see this server up, please pm me a woking serial.

Thanks, and wish me luck

trooprm02
