Yeah, i try to avoid AOW servers like the fuggin plague. See, i have this thing about having to many uptight people in one game, that kinda keeps me out of em. Considering the fact that the AOW people, or atleast most of them, think that they are all gods. I bet you, that 9/10 times, someone that plays nothing but AOW wouldnt stand very much of a chance on a regular server, like Unrules New Maps, or even Unrules CP1.
