03:27Lijitsu, I think I remember you nominating yourself and for the reason it was like : o why not
or something.
Actually, Lijitsu being nominated for Tech Support and the Blackhand Studios forums is my doing.
Why the Studios? Because Lijitsu has as little tolerence for idiots who get banned due to their
own incompetence and feign innocence as I do. Why Tech Support? Pretty much the same
reason. . .just a different topic.(IE, people being stupid about obvious technical issues.)

You don't really need tolerance, your job is just to get rid of the threads.
