I honestly dont think hes cheating.

These never ending arguements are so damn stupid...

If clearscope was a cheat and everyone thought it was a cheat it wouldnt be aloud on renguard.

And this n00bjet shit is fuckin retarded its a weapon in the game. it costs twice as more to buy then the regular sniper and it gives that blue tracer when it fires. I think thats enough to make up for it doing alittle more damage then the regular sniper. Who cares if you get killed by someone with it. Go spend the money and buy one then kill them. If you dont wanna spend 1000credits then dont bitch about getting owned.

And Chrono i remember very clearly back in the old days in the mutant server you would own a shit load of people early in the game with a deadeye but then once someone finally killed you you would always switch to the sakky or havoc.

(P.S omfg your girlfriend posts on your computer game forum thats fucking awesome, YOU HOLD ON TO THAT!)

(P.P.S I think she blocked me cuz i havnt seen her online in like a year and a half)
