First,

Retarded - Occurring or developing later than desired or expected; delayed.

I do not like your language, so please don't be an asshole.

Second,

If I had more, I would give them away, BUT being that I cannot, and people want them, and I cannot replace them, this is the only way it seems fair.

Third,

Don't give me attitude, I wasn't the wanker who stole all the FDS serials.

Forth,

Do not post here, unless you want to buy a serial. I am not in the mood for a 2bit flamer. Grow Up.
