<http://xwis.net/>

no idea how it works but theres no servers...and its supposed to make it so if the ren master goes down that this will work..

im going to start using it..later...and get more people to use it..

i know alot fo you think its stupid..just wait the wol servers will goo poof in like a secound and you be like wow im so f*cking retarded i should have switched...o wait i still can
