[Dead-6DarKsidE... wrote on Mon, 29 August 2005 21:58]whatever would u do any better in french?

what's wrong with trying to speak english... at least i try to answer u'r question (unlike u) and make myself understandable even if it's hard sometime... i see u'r talking about sarcasm... just read my previous post if u'r not blind u'll might see some...

One helpful tip you can try when writing out something everyone can understand is using proper spelling in your posts; it's really hard understanding someone who doesn't use the actual words let alone someone who already is having trouble translating into English on top of it. ^_^

i don't despise girls or anything don't use that as an argument, it was just an example... trying to make me say i think girls and boys are not equal? (remember when i said girls are more mature than boys???) i don't think there's something wrong in defending u'r boyfriend... (by the way u'r doing great, maybe better than him)

I'm not defending him, I'm wondering what the hell is going on with Renardin, but he seemed to clear that up. Thanks Renardin. ^_^

Just remember that people are people; gender has nothing to do with how foolish someone is. It does, however, have a "cultural" impact of sorts, depending if those around you feel strongly enough to really make you play the role your culture has for that gender. I was raised around all males so that is the "culture" I picked up. I learned how to play my female role from my friends at school when I was little and also from the teachers and parents of my friends. But!... you can be raised around morons and pick that up, too, regardless of gender. ^_-

each time i justify myself... ok ok if u want it i hate girls especially when they are like u. just following "boys" and "being a tool" like u said previously...

You think I am being a tool and following males...? That's not what I do at all. I like videogames and if the majority of people who play them are guys, eh, oh well. You do what you've gotta do. =P When I said I like "being one of the boys", that means I enjoy feeling like I'm not being treated differently because I have ovaries. That also means I'm not being flirted with constantly or being treated in a gentle way that implies I am a weakling. I am less of a pussy than most people I know, and I want to be treated as such. =P hehe Just ask anyone in #renalert or #n00bstories, even.

ho yeah i said that cause he used the word "boyfirend" i don't know much about english but i surely know what a boyfriend is...

He was kidding, geez =P

chrono that's the 3rd time u use "my english" that as an argument... who the fuck care... u'r the only one complaining about that again...is my english really the problem? lol... don't think so...

It is a bit frustrating to read honestly... it's not really your English but rather how you manage to spell it.

i'll end by saying this :Renardin and the team listen to the people comments. It's not because someone comes with an idea that they have to follow it. They make their mod and they decide the stuff. They do it for nothing and use a lot of their time...

That is true, but where would they be without a community?

by the way renardin is banned from red alert forum for more than 1 year...and he really... really don't care... tried something to get him back on the renalert forum?? mmm... i guess no...

Eh, that's entirely up to Aircraftkiller.

what ever u'll say have a nice night (i hope u'll stil have some power left to be horny after saying all those craps...)

What the HELL?! O_o

I might as well post this link while I'm here: <http://www.ocremix.org/remix/OCR00404/>

Everyone should download that, it's a song that's put together very well.

PS: You're not the only Frenchie here =P There are tons of people with French mixed in. Kinda like mixing vanilla icecream with chocolate chips... damn, now I want icecream.
