I give you an F in efficiency, but an A+ in dramatic timing.

Seriously, you get an A+ in post originality, a B- for the image, and an F for claiming your the best clan, or atleast that you will become it. As far as i know, GDE is one of the best clans out there, and i have yet to see one of their members claim that its the best clan. Not that i would argue with them, ive played with a few of their members before.
