nopic does NOT do this on purpose, so stop telling him to go jump in front of a bus or some shit like that

if you dont like him, put him on your ignore list

everyone can change, and that includes nopic.

on the other hand, there is a certain forum member who will remain unnamed, that purposely trys to piss people off, whenever i say things about him i just get told to put him on my ignore list so y dont you just put nopic on YOUR ignore list?
