Joseph Collins wrote on Fri, 16 September 2005 05:50All and all, though, I've gotta say that at first, my reaction to the controller was "What on Earth?!" After a few moments and some light reading, however, I think I can see how playing a game with that would work. I dare say I even dig the concept.

I had similar reactions. Although, I still like to hold my controllers with both hands.
