ododd wrote on Fri, 16 September 2005 16:13just go to options then under controls switch they key.......
Ain't there. However. . .
Kanezor wrote on Thu, 08 September 2005 21:00In your Renegade directory, open the file Data\input01.cfg.

Look for the line:
VehicleToggleGunner_Primary=Q_Key

Change it to what you want. Be smart about it: while the key names aren't exactly obvious ("Q_Key" instead of "q"), they are quite self-explainatory if you look over the whole file for a few moments.
