I'm Canadian...

1. our dental system is considerably better than yours

We have free health care

2. it is free

That's great, I'd rather have our system than yours.

3. yours isn't

See #2

4. since when is tea a bad thing?

It's not, I love it, I was just describing the nationally known traits of Britian.

Spoony, in absolutly no way did I mean to offend anyone, this was more of a joke, however I did have MANY bad experiences with brits in my time (and I'm a very easy going guy), keep in mind these were 17-20 year olds.

I actually respect greatly you for your amazing tactic strats.

Just wanted to make some laughs
