I want that 5 minutes of my life back, so I can kick your ass. This was the worst Renegade movie I've ever seen, and that's sayin something, I saw mine. Your lack of skill with the APC, Medium Tank, Hotwire units made me laugh. You can't even dodge Tank rounds properly. You took full damage from the last shot when you went to that rock, when you only had to take a small amount. You use a Stealth Hack Skin which implies that you either think that Nod shouldn't be allowed to use Stealth units because GDI can't, or you're just a moron. If I really had the desire to make a Renegade movie, it wouldn't be this bad. And since I recently cleaned out my Data folder of any and all skins, so there would be no way I could use that horrible skin. Besides, you get skins because they're cool looking, not because they help you win games.
