Dreadlord wrote on Fri, 07 October 2005 10:04sometimes RG causes FPS to fall from 60 to 8 in game's main menu

but when i shut down renegade and start the game again, everything is OK.
%)

That's not a RenGuard problem...I used to have that same issue all the time, before RG even existed. It turned out to not be Renegade at all, but my sound card driver freaking out and using a lot of CPU for reasons unknown.
