i even cannot add it
sorry guys
but my renguard period is OVER AND OUT!

It was a great program guys
i really enjoyed it.
Good work
well its over now

greetz Recon

Have you read any suggestions so you can fix this problem?

Also, to revive your renguard shred your norton CD's and uninstall everyting from Norton if you
refuse to read them.

According to a report from ingram091, other anti-virus programs are picking up svkp.sys as well...
