Look who I found posting on a Renegade torrent (torrent=type of p2p I use aswell):

*Crimson: Sorry, I had to remove this link because you said his website name in the comments.
Plus this software is illegal.*

*NOTE the name who posted the comments (I'm TrueTroop)!

It was uploaded by "annonymous", I think we can all geuss who that could be

Anyway, by his comments he seems to be a smart torrenter, any comments?
