Yes, I have downloaded a 'really old bypass' and attempted to use it...solely to see if it actually worked (admittedly I had my doubts). Knowing me as well as many of you do, I do hack, but only to better myself as a moderator. This is what I was trying to do, as the HT servers never ran RG and I have seen evidence that it can be hacked, I wondered was it really that easy? I had no idea of the consequences - shows how much I know about Renguard. I extend my sincerest apologies to Crimson, and offer her my best wishes with her future endeavours.

You're pathetic.

Just out of curiosity, how stupid does everyone who stuck up for him feel?
