is there a fix to renguard for it? where norton doesn't effect it? that's why so many people are having problems with it, I keep getting forced because I'm so awesome and, well, i wawnt to know if there are any fixes out for the norton thing.

another thing, is norton not letting me see the server when i try to join wol? I can't see server, someimte i do see some (definatly not all) and i can't join, I hate GSA, no offence to anyone, but i have use it and i hate it so if anyone could help me out, it would really be ...well helpful.

and third, not really a problem to me, but people are saying renguard cna be hacked, i keep saying i don't care, they tell me someone's cheating, some one i know, and they think he hacked renguard, **WOULD SOMEONE PLEASE TELL ME THAT IT CAN NOT BE HACK????**
RENEGADE IS DYING CAUSE OF YOU NOOBY CHEATERS, IT NOT THAT POPULAR, LEAVE RENEGADE IF YOU GO THROUGH ENOUGH TROUBLE TO HACK RENGUARD!!! Most people will ban you no matter what, if your cheating or not.
