I clicked the wiki link, and closed it like a coffin. What is this XWIS you speak of? Never heard of it till this morning. Just seems to me that a link to this tool would be the one with neon lights around it. Also, the splash screen on rengaard was showing me the top 5 servers with hardly anyone in them. I understand that it's my problem for not reading more and it's only a gmae. I just was thinking, Im not the only one in the dark on this, but I'm going to be ok.
